About Us

Crimeophobia's Crime Psychology Clinic is a specialized mental health facility focused on understanding, preventing, and treating the psychological aspects of criminal behavior. The clinic employs a team of experts who use evidence-based practices to address the mental health issues contributing to criminal activities. Services include individual therapy, group counseling, and neurocriminological assessments aimed at rehabilitating offenders, supporting victims, and enhancing community safety. The clinic is committed to advancing criminal psychology through research and educational programs and only with Solution Based Therapies. With a range of subject experts and Board of Advisors, the clinic's CSR division, the Ministry of Happiness (registered as a trust with the Government of Maharashtra, India), also accepts pro bono cases, underscoring its dedication to social responsibility.

Medico Legal Cases Solution-Based Therapy

Crimeophobia's Crime Psychology Clinic specializes in handling Medico Legal Cases using Solution-Based Therapy techniques. This therapeutic approach focuses on identifying and enhancing clients' strengths and resources to resolve issues. Prioritizing solutions over problems, the clinic encourages clients to envision their desired future and work towards achievable goals. By fostering a positive and collaborative environment, Solution-Based Therapy helps individuals develop practical strategies to overcome challenges and improve their overall well-being within the context of medico-legal matters.

Post Crime Trauma & Criminal Behaviour Syndrome

Our clinic is committed to the forefront of Mental Healthcare Rehabilitation, with a special focus on Neurocriminology. The Founder, Criminologist Snehil Dhall's groundbreaking contributions include the introduction of two key terms - Post Crime Trauma and Criminal Behaviour Syndrome. Here, we strive to provide comprehensive care for individuals grappling with mental health challenges arising from criminal & legal experiences, aiming to foster rehabilitation and well-being.

Anti-Criminal & Anti-Terrorism Rehabilitation

The Anti-Crime and Anti-Terrorism Rehabilitation program at Crimeophobia's Crime Psychology Clinic is dedicated to addressing and mitigating criminal behaviors and terrorism-related activities. Through specialized psychological interventions, the clinic focuses on rehabilitating individuals involved in or affected by crime and terrorism. The program employs evidence-based therapies, expert counseling, and comprehensive support systems to promote mental health recovery, reduce recidivism, and foster community reintegration. By prioritizing a holistic and empathetic approach, the clinic aims to transform lives and contribute to a safer society.
